Chairman's Statement

On behalf of the Board of Directors (the "Board"), I am pleased to present the annual report of Earnest Investments Holdings Limited (the "Company") for the year ended 31 December 2015.

MANAGEMENT DISCUSSION AND ANALYSIS

Results and Appropriations

For the year ended 31 December 2015, the Company recorded a turnover of approximately HK\$39.5 million (2014: HK\$26.8 million), loss attributable to owners of approximately HK\$19.7 million (2014: profit of HK\$0.6 million) and loss per share of HK\$0.203 (2014: profit per share of HK\$0.008). The increase in turnover was mainly due to the increase in trading of listed securities. As compared to the last year, despite there was a net realized gain on disposal of listed securities amounting to approximately HK\$2,448,000 (2014: HK\$874,000), the Company's result was mainly attributable to the unrealized holding loss on the trading securities in Hong Kong.

Business Review

The year under review continued to be a difficult year for Hong Kong securities market which was adversely affected by the negative investment sentiment across the world including especially the People's Republic of China. As compared to the last year, the carrying value of the Company's share portfolio dropped by 31% to HK\$25 million as at 31 December 2015. Under current global economic uncertainties and volatility, the Company will continue to be cautious in making new investments and trading of listed securities and to maintain and grow its portfolio value in future. However, as the Company's operating results are mostly driven by the Company's investments in trading securities, its performance will continuously be affected by the prevailing global stock market.

The Company's portfolio of Hong Kong listed securities as at 31 December 2015 consisted of China Dynamic (Holdings) Limited, New Times Energy Corporation Limited, APAC Resources Limited, Hong Kong Exchanges and Clearing Limited, Tencent Holdings Limited, C.banner International Holdings Limited, Shufeng International Clean Energy Limited and China Innovationpay Group Limited.

As at 31 December 2015, approximately 74% (2014: 68%) of the Company's total investments were in a portfolio of Hong Kong listed securities, 1% (2014: 1%) in other assets and the remaining 25% (2014: 31%) in cash which was deposited with banks in Hong Kong.

Liquidity, Financial Resources and Funding

As at 31 December 2015, the net asset value of the Company amounted to HK\$33,325,997 (2014: HK\$53,028,561) with net asset value per share of HK\$0.34 (2014: HK\$0.55). The Company has no significant liabilities. The gearing ratio of the Company, calculated on the basis of the Company's total liabilities over total owners' funds, was 0.007 as at 31 December 2015 (2014: 0.004).

For the year under review, the Directors considered the opportunity for the Company to raise additional capital to enhance its capital base and broaden its shareholders' base by shares placement. Hence, the Company entered into a placing agreement (the "Placing Agreement") with RHB Securities Hong Kong Limited, pursuant to which RHB Securities Hong Kong Limited agreed to place a maximum of 19,000,000 shares of the Company (the "Placing Shares") on a best effort basis to not fewer than 6 placees, at a price of HK\$0.7 per Placing Share (the "Placing") under the general mandate granted to the Directors by the shareholders at the annual general meeting held on 22 May 2015. The net proceeds raised upon the completion of the Placing was intended to be used for working capital of the Company and future investments yet to be identified.

The Placing completed on 11 January 2016. Details of Placing Shares are set out in note 22 to the financial statements.

All the Company's cash and cash equivalents were denominated in Hong Kong dollars as at 31 December 2015. The Directors believe that the Company had minimal exposure to foreign exchange risk.

Chairman's Statement

Environmental, Social and Corporate Responsibility

The Company is committed to maintain environmental and social standard to ensure business development and sustainability. We take steps to reduce our consumption of energy and natural resources e.g. advocate paperless office to reduce the consumption of paper, turn off computers, printers and lighting immediately after use; and use environmentally friendly products and certified materials whenever possible.

The Company has complied with all relevant laws and regulations which include the Bermuda Companies Act and the Rules Governing Listing of Securities on the Stock Exchange and maintained good relationship with its employees and investors.

Employees

During the year, the Company has 7 staff including Directors and the total staff costs for the year amounted to HK\$580,700 (2014: HK\$459,000). The Company's remuneration policies are in line with the prevailing market practice.

Charges on the Company's Assets and Contingent Liabilities

As at 31 December 2015, there were no charges in the Company's assets and the Company did not have any significant contingent liabilities.

Prospects

The Company's management will adopt a conservative approach in managing the existing investments in accordance with the Company's investment objectives and policies.

Nevertheless, the Company will continue to identify and capture investment opportunities as and when they arise.

Appreciation

On behalf of the Board, I would like to thank all our shareholders for their continued trust and support, and the Investment Manager for their dedicated efforts.

DIRECTORS' RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The Directors of the Company are responsible for the preparation of financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on our audit and to report our opinion solely to you, as a body, in accordance with section 90 of the Bermuda Companies Act 1981, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

4. SIGNIFICANT ACCOUNTING POLICIES

These financial statements have been prepared under the historical cost convention, unless mentioned otherwise in the accounting policies below (e.g. certain investments that are measured at fair values).

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the accounting policies.

The significant accounting policies applied in the preparation of these financial statements are set out below.

(a) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates (the “functional currency”). The financial statements are presented in Hong Kong dollars, which is the Company’s functional and presentation currency.

(ii) Transactions and balances in financial statements

Transactions in foreign currencies are translated into the functional currency on initial recognition using the exchange rates prevailing on the transaction dates. Monetary assets and liabilities in foreign currencies are translated at the exchange rates at the end of each reporting period. Gains and losses resulting from this translation policy are recognised in profit or loss.

Non-monetary items that are measured at fair values in foreign currencies are translated using the exchange rates at the dates when the fair values are determined.

When a gain or loss on a non-monetary item is recognised in other comprehensive income, any exchange component of that gain or loss is recognised in other comprehensive income. When a gain or loss on a non-monetary item is recognised in profit or loss, any exchange component of that gain or loss is recognised in profit or loss.

(b) Operating leases

Leases that do not substantially transfer to the Company all the risks and rewards of ownership of assets are accounted for as operating leases. Lease payments (net of any incentives received from the lessor) are recognised as an expense on a straight-line basis over the lease term.

Notes to the Financial Statements

For the year ended 31 December 2015

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(c) Recognition and derecognition of financial instruments

Financial assets and financial liabilities are recognised in the statement of financial position when the Company becomes a party to the contractual provisions of the instruments.

Financial assets are derecognised when the contractual rights to receive cash flows from the assets expire; the Company transfers substantially all the risks and rewards of ownership of the assets; or the Company neither transfers nor retains substantially all the risks and rewards of ownership of the assets but has not retained control on the assets. On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and the cumulative gain or loss that had been recognised in other comprehensive income is recognised in profit or loss.

Financial liabilities are derecognised when the obligation specified in the relevant contract is discharged, cancelled or expires. The difference between the carrying amount of the financial liability derecognised and the consideration paid is recognised in profit or loss.

(d) Financial assets

Financial assets are recognised and derecognised on a trade date basis where the purchase or sale of an financial asset is under a contract whose terms require delivery of the financial assets within the timeframe established by the market concerned, and are initially measured at fair value, plus directly attributable transaction costs except in the case of financial assets at fair value through profit or loss, for which transaction costs are expensed immediately.

The Company classifies its financial assets in the following categories: at fair value through profit or loss and loans and receivables. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

(i) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are either financial assets classified as held for trading or designated as at fair value through profit or loss upon initial recognition. These financial assets are subsequently measured at fair value. Gains or losses arising from changes in fair value of these financial assets are recognised in profit or loss.

(ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. These assets are carried at amortised cost using the effective interest method (except for short-term receivables where interest is immaterial) minus any reduction for impairment or uncollectibility. Typically trade and other receivables, bank and cash balances are classified in this category.

Notes to the Financial Statements

For the year ended 31 December 2015

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(e) Other receivables

Other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less allowance for impairment.

If collection of other receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

(f) Cash and cash equivalents

For the purpose of the statement of cash flows, cash and cash equivalents represent cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term highly liquid investments which are readily convertible into known amounts of cash and subject to an insignificant risk of change in value.

(g) Financial liabilities and equity instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument under HKFRSs. An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. The accounting policies adopted for specific financial liabilities and equity instruments are set out below.

(h) Other payables

Other payables are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method unless the effect of discounting would be immaterial, in which case they are stated at cost.

(i) Equity instruments

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

(j) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and is recognised when it is probable that the economic benefits will flow to the Company and the amount of revenue can be measured reliably.

- (i) Dividend income from listed investments is recognised when the share price of the investment goes ex-dividend. Dividend income from unlisted investments is recognised when the shareholders' rights to receive payment are established; and
- (ii) Interest income is recognised on a time-proportion basis using the effective interest method.

Notes to the Financial Statements

For the year ended 31 December 2015

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(k) Employee benefits

(i) Employee leave entitlements

Employee entitlements to annual leave and long service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the end of the reporting period.

Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

(ii) Pension obligations

The Company contributes to defined contribution retirement scheme which is available to all employees. Contributions to the scheme by the Company and employees are calculated as a percentage of employees' basic salaries. The retirement benefit scheme cost charged to profit or loss represents contributions payable by the Company to the funds.

(iii) Termination benefits

Termination benefits are recognised at the earlier of the dates when the Company can no longer withdraw the offer of those benefits, and when the Company recognises restructuring costs and involves the payment of termination benefits.

(l) Taxation

Income tax represents the sum of the current tax and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit recognised in profit or loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of reporting period.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences, unused tax losses or unused tax credits can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, based on tax rates that have been enacted or substantively enacted by the end of the reporting period. Deferred tax is recognised in profit or loss, except when it relates to items recognised in other comprehensive income or directly in equity, in which case the deferred tax is also recognised in other comprehensive income or directly in equity.

Notes to the Financial Statements

For the year ended 31 December 2015

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(l) Taxation (continued)

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

(m) Impairment of financial assets

At the end of each reporting period, the Company assesses whether its financial assets (other than those at fair value through profit or loss) are impaired, based on objective evidence that, as a result of one or more events that occurred after the initial recognition, the estimated future cash flows of the (group of) financial asset(s) have been affected.

For all financial assets, the carrying amount is directly reduced by the impairment loss.

For financial assets measured at amortised cost, if the amount of the impairment loss decreases in a subsequent period and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through profit or loss. However, the reversal must not result in a carrying amount that exceeds what the amortised cost of the financial asset would have been had the impairment not been recognised at the date the impairment is reversed.

(n) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Company has a present legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditures expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow is remote.

(o) Events after the reporting period

Events after the reporting period that provide additional information about the Company's position at the end of the reporting period or those that indicate the going concern assumption is not appropriate are adjusting events and are reflected in the financial statements. Events after the reporting period that are not adjusting events are disclosed in the notes to the financial statements when material.

5. FINANCIAL RISK MANAGEMENT

The Company's activities expose it to a variety of financial risks: price risk, credit risk, liquidity risk and interest rate risk. The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Company's financial performance.

(a) Price risk

The Company is exposed to equity price risk mainly through its investment in equity securities. The management manages this exposure by maintaining a portfolio of investments with different risk and return profiles. The Company's equity price risk is mainly concentrated on equity securities quoted on the Stock Exchange.

The sensitivity analyses below have been determined based on the exposure to equity price risk at the end of the reporting period.

If equity prices had been 10% higher/lower (2014: 10% higher/lower), loss after tax for the year ended 31 December 2015 would decrease/increase by HK\$2,498,131 (2014: profit after tax increase/decrease by HK\$3,611,639). This is mainly due to the changes in fair value of held-for-trading investments.

As at the date of approval of these financial statements, the losses from change in fair value on financial assets at fair value through profit or loss held as at 31 December 2015 approximate to HK\$4,404,000.

(b) Credit risk

The Company has no significant concentrations of credit risk.

The credit risk on bank and cash balances is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies.

The credit risk on financial assets at fair value through profit or loss is limited because the counterparty is a well-established securities broker firm in Hong Kong.

(c) Liquidity risk

The Company's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash to meet its liquidity requirements in the short and longer term. The Company's financial liabilities are repayable on demand or within one year.

(d) Interest rate risk

The Company's exposure to interest rate risk arises from its bank deposits. These deposits bear interest at variable rates varied with the then prevailing market condition. The changes in interest rates are not significant to the financial statements.

(f) Fair values

6. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following disclosures of fair value measurements use a fair value hierarchy that categorises into three levels the inputs to valuation techniques used to measure fair value:

Level 1 inputs:	quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date.
Level 2 inputs:	inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.
Level 3 inputs:	unobservable inputs for the asset or liability.

The Company's policy is to recognise transfers into and transfers out of any of the three levels as of the date of the event or change in circumstances that caused the transfer.

The recurring fair value measurements of the Company's financial assets at fair value through profit and loss are using the Level 1 of the fair value hierarchy.
